

TMV's Lokmanya Tilak institute of Pharmaceutical Sciences, Pune

Our Laboratories

Welcome to TMV's Lokmanya Tilak Institute of Pharmaceutical Sciences, where innovation meets precision in pharmaceutical research and development. Our state-of-the-art pharmaceutical laboratories are equipped with advanced instruments that drive excellence in education and research.

At TMV's Pharmaceutical Sciences Institute, we prioritize hands-on learning and cutting-edge technology. Our laboratories feature Dissolution Apparatus, Rotary Evaporator and spectrophotometers. These instruments enable our students and researchers to conduct accurate analyses of pharmaceutical compounds, ensuring quality and efficacy.

In addition to analytical tools, our labs are equipped with microbiological testing equipment for evaluating sterility and microbial limits, critical for pharmaceutical safety.

Committed to academic rigor and industry relevance, our laboratories adhere to Good Laboratory Practice (GLP) guidelines, ensuring meticulous documentation, instrument calibration, and sample traceability throughout experiments. This approach prepares our students to meet global standards and regulatory requirements in pharmaceutical sciences.

Join us at TMV's Lokmanya Tilak Institute of Pharmaceutical Sciences, where our well-equipped laboratories foster innovation, research excellence, and the future leaders of the pharmaceutical industry. Discover how we're shaping the future of pharmaceutical education and research.
